## LCD Digital Clocks

ideal for prestigious rooms and places of high publicity

LCD digital clocks displaying hours, minutes, and seconds. High definition, high contrast LCD display for outstanding readability even at extremely sharp angles.

## Case

Extra flat, sturdy plastic case enamelled metallic silver as standard.

## LCD digital display

Single line LCD display with extra large black 9-segment ciphers showing hours and minutes (cipher height 75 mm ), as well as seconds (cipher height 60 mm ). Optionally, room temperature may be displayed alternating with time.

## Type series <br> 551 <br> 53

DCF77 radio controlled clocks
DCF77 radio controlled clocks will only function correctly within a radius of approx. $1,500 \mathrm{~km}$ around Mainflingen ( 50 km east of Frankfurt/M.) and under conditions of free radio propagation and may be impaired in heavily reinforced concrete structures. For this case we recommend a remotable DCF77 aerial (option).

## PEWETA DCFport2

PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 172 on).

[^0]
[^0]:    ${ }^{1}$ ) Operation of the LCD display requires batteries
    (LR 6/AA type, included in delivery shipment) or an integrated power supply (optional).
    ${ }^{2)}$ Operating voltage is supplied by the master clock
    via DCFport24 telegram (current draw cir. 10 mA ).
